- Routine plan changes and disenrollments should be handled with Health Care Options. Many beneficiaries can use continuity of care to see their providers while a routine plan change or disenrollment is in process. Beneficiaries should contact their plan to make this request.
- Do not send personal health information or ID numbers through unsecured email. You can send an email request to the new inbox for a secure email from DHCS, and you can respond to that secure email with this information.
- You will receive a response to your request within 2 to 3 business days to confirm receipt and that DHCS is working on the issue. You will receive an email confirmation of the issue resolution.
- You may not receive specifics on the case itself if you are not the authorized representative or the beneficiary.
